*Please fill out the test by hand.*

1. When a child suddenly begins to look or act differently, it may be a sign that the child has a health problem.  
TRUE or FALSE
2. The following symptoms of illness should be reported to parents or a medical advisor immediately:  
a) Loss of appetite      b) Vomiting      c) Anxiousness      d) Difficulty in breathing
3. Illness is no reason to isolate a child from other children.  
TRUE or FALSE
4. When you suspect a child is running a fever, the best method for taking a temperature is to place the thermometer:  
a) In the child's mouth      b) Under the child's arm      c) In the child's rectum
5. Always clean your thermometer by washing it in hot, soapy water.  
TRUE or FALSE
6. When using the axillary method, a normal temperature is 97.4°F.  
TRUE or FALSE
7. No matter what, when a child is hurt or ill, parents must be contacted first.  
TRUE or FALSE
8. If children learn to dial "0", say as little as "Teacher hurt", and leave the phone off the hook, help can be sent.  
TRUE or FALSE

9. If you suspect a child is being abused, a tactful discussion with the parents is wiser than reporting the situation to the authorities.  
TRUE or FALSE
10. The privacy of caregiver records is protected by law.  
TRUE or FALSE
11. Temperature taken by the axillary method should be confirmed by a nurse or doctor.  
TRUE or FALSE
12. If a family does not have a doctor, you can obtain names and numbers of people to call from:  
a) Local public health department      b) Licensing representative  
c) Department of Health and Human Services      d) All of these      e) None of these
13. A staff meeting should be called whenever a contagious disease is identified.  
TRUE or FALSE
14. A follow-up report on a child returning after an illness should include:  
a) What illness, accident, or injury the child had and what medication is needed  
b) Any activities which should be limited and special needs  
c) Any problems the child might have  
d) A & B  
e) A, B, & C
15. National health regulations govern when a child recovering from a communicable disease may return to school.  
TRUE or FALSE
16. Prescription medications given to children do not have to be in the original container, if you have written permission of the parents.  
TRUE or FALSE
17. It is necessary to have written permission to give non-prescription medicine when required.  
TRUE or FALSE
